Examples of Activities, Risks and Procedures

The examples listed in this document are provided to assist schools in undertaking their risk assessment under the Children First Act, 2015. Schools should note that this list of examples is not intended to be exhaustive, and that the inclusion of an example of a policy or procedure on these lists does not make it mandatory. It is the responsibility of each school to ensure, as far as possible, that any other risks and procedures that are relevant to its own particular circumstances are identified and specified in the written risk assessment and that adequate procedures are in place to address all risks identified.

It is acknowledged that schools already have in place a range of policies, practices and procedures to mitigate the risk of harm to children while they are participating in the activities of the school and that some school activities will carry low or minimal risks of harm compared to others. In the context of the risk assessment that must be undertaken by schools, the Children First Act, 2015 refers to risk as 'any potential for harm'.

Therefore, it is important that, as part of its risk assessment process, each school lists and reviews all of its various activities (which shall include identifying those that may carry low risk of harm as well as those that carry higher risks of harm). Doing so will help the school to:

- > Identify, as required under the Children First Act, 2015, any risks of harm that may exist in respect of the school's activities.
- > Identify and assess the adequacy of the various procedures already in place to manage those risks of harm.
- > Identify and put in place any such additional procedures as are considered necessary to manage any risk identified.

Online Safety

The *Addendum to Children First: National Guidance for the Protection and Welfare of Children 2017* published in January 2019 clarifies that organisations providing relevant services to children should consider the specific issue of online safety when carrying out their risk assessment and preparing their Child Safeguarding Statement and Risk Assessment.

The *Guidance on Continuity of Schooling for primary and post-primary schools (April 2020)* advises of the importance of teachers maintaining the safe and ethical use of the internet

Risk in the context of this Child Safeguarding Statement and Risk Assessment is the risk of 'harm' as defined in the Children First Act 2015 and not general health and safety risk. The definition of harm is set out in the Children First Act 2015: 'harm' means, in relation to a child— (a) assault, ill-treatment or neglect of the child in a manner that seriously affects or is likely to seriously affect the child's health, development or welfare, or (b) sexual abuse of the child, whether caused by a single act, omission or circumstance or a series or combination of acts, omissions or circumstances, or otherwise.

Child Safeguarding in our School

Child safeguarding is what we do in our school to keep students safe from harm.

We think about how to keep everyone safe, and we write down how we will do that.

This is called our **Child Safeguarding Statement**. We check this every year. When we do this, we will ask you what you think about safeguarding in our school. It is important that you feel safe at school and in your life outside of school too.

If someone says or does something to hurt you or makes you feel uncomfortable, you can tell an adult that you trust.

Who to go to:

Any trusted adult

For example, your Year Head or Tutor, a teacher, SNA, support staff, the Principal or Deputy Principals

What we will do:

- Listen and understand
- Guide or look for help

Every school has a person in charge of child safeguarding. This person is called the **Designated Liaison Person** or **DLP**. The **DLP** for our school is

Mr. Ken Flynn
